

HPD UNIQUE IDENTIFIER: 25157

CLASSIFICATION: 12 36 40 Stone Countertops

PRODUCT DESCRIPTION: Cambria is a leading, family-owned, American-made producer of natural stone. Cambria offers the most diverse palette of sophisticated designs for residential and commercial applications including countertops, vanities, wall cladding, flooring, and wet bars. As a stain resistant, nonporous natural stone surface, Cambria is strong, safe, maintenance-free and easy to care for, and each design carries a Full Lifetime Warranty against manufacturing defects. With innovative design, American craftsmanship, and superior performance, Cambria provides a lifetime of beauty and peace of mind for any interior space.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

CAMBRIA NATURAL STONE

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: Cambria Natural Stone is comprised of silica (quartz), binder, and pigments and processed in the form of slabs of various thicknesses.

OTHER PRODUCT NOTES: Any potential hazards associated with Cambria are common to all stone products (granite, marble, concrete, etc.) and are related to potential exposure during improper fabrication if not conducted properly (e.g., fabrication must occur with water to reduce respirable dust). They are not applicable to the final installed product.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
